This subject contributes to the achievement of the Program Learning Outcomes by enabling participants to an understanding on the general principles of basic accounting and legal concepts related to banking and finance. This is an introductory subject that serves to equip participants with the fundamental but essential knowledge on the two professional areas such that participants would be well prepared to examine and analyze further issues in this two areas when they proceed to study specialist subject such as “Banking Law & Practice” in their advanced level of studies under the AHKIB program.
