Objective

Fintech is quickly transforming fundamental banking products, processes and people. This has only accelerated with the latest onset of pandemic restrictions. This is a introductory level course on the transformation of finance through a broad range of technologies. This course will cover:

- A comprehensive understanding of FinTech, in particular how new technologies are being used in Banking Industry
- The HKMA's role in promoting fintech in Banking Industry
- The HKMA FinTech 2025 Strategy and it's implications
- Challenges of fintech adoption in banking industry

SPEAKER
Key Description

- The speaker has over 30 years of experience working in large international banking corporations managing functions such as systems solutions, business analytic, operational planning, corporate security, operations risk management as well as anti-money laundering compliance
- He has a Master's of Business Administration Degree and is one of the Directors and founding members of the RegTech Association of Hong Kong
- He has conducted trainings in different banks and organisations covering various subjects related to banking industries

Target Audience

Junior bankers and those new to the industry

01 who are interested to learn about the evolution and application of finTech and are interested in capturing future opportunities in the growing fintech world.

Compliance professionals

02 who want insight into the regulator's role and efforts to promote fintech adoption and familiarise themselves with RegTech initiatives needed to elevate the compliance capabilities of their institutions.

Programme Outline

- Recap of the fundamental and development of fintech
- Differentiation between fintech, regtech and suptech
- How key technologies are reshaping the Banking Industry now and over the next year
- Illustrate fintech use cases adopted in financial services
- Fintech adoption activities taken by HKMA before Fintech 2025
- Dissecting Fintech 2025 Strategy
