

New Concepts and Measures on Credit Risk Management during & after Pandemic

15 Jun 2022 (Wed) | 7:00pm - 10:00pm

Apply now

Objective

The Covid-19 pandemic has increased the challenges banks face when assessing the credit quality of borrowers. Supervisors have observed a range of policies and practices across bank's credit risk governance and credit risk models.

The programme aims to update participants on the current credit issues in the banking industry, particularly on the impact of Covid-19 pandemic to the credit environment and its effect on credit management.

A detailed discussion on the bank's strategic intention to continue monitoring bank practices in assessing credit risk and asset quality, and setting provisions, monitoring credit risk especially as the effects of support measures continue to evolve.
