Heightened volatilities coupled with major corrections in financial markets have put the world to the test, posing severe challenges for asset management and investment return. While the relaxation of entry restrictions worldwide have brightened up economic outlook, geopolitical fragmentation and tightened monetary-policy stance would weigh on global recovery. Amid the rapid-changing investment landscape due to evolution of financial technology, climate change and regional integration, innovative tactics and swift adaptation are vital in grasping potential business opportunities.

The HKIB OFMP Awards programme goes beyond a symbol of excellence in the profession by offering a unique platform for financial practitioners to share their experience and expertise. It also promotes best practice standards and attitudes in the course of providing top-notch financial services to enhance public confidence in financial planning and wealth management.

Congratulations to winners of the 15th HKIB OFMP Awards. I wish them every success in their career development.

Congratulations to all the winners of the 15th HKIB Outstanding Financial Management Planner Awards. I'm pleased to see that this programme has become an important initiative to strengthen Hong Kong's position as an international financial centre, bringing together the two crucial elements of talent and wealth management.

Talent is the backbone of Hong Kong's success as a global centre and it's no accident that this city has become the indispensable connector between East and West. I strongly believe that we earned this role because our industry practitioners have made Hong Kong a bridge between ideas, between people and between markets.

Since 2006, Asia's total financial wealth has nearly tripled, and now is worth around USD140 trillion. Within Asia, the Greater Bay Area is actually a powerhouse for the development in wealth management, with 450,000 high net-worth families holding aggregated investible assets worth at least RMB2.7 trillion. All these factors imply a huge demand for wealth planners in the near future.

HKIB and the industry as a whole are committed to continuing to enrich Hong Kong's talent pool to meet this future demand. Together, we can help Hong Kong continue to thrive as an international financial hub.

The 15th HKIB Outstanding Financial Management Planner Awards

The winners of the 15th HKIB Outstanding Financial Management Planner Awards (OFMP Awards) have once again demonstrated the excellence and professionalism of Hong Kong talent within the Financial Management sector. My heartfelt congratulations to all practitioners receiving their Awards today.

Competition in this year's Award has been intense as always. I am delighted to see high quality presentations made, for this reflects the practitioners' dedication to continuous enhancement, and their awareness of an increasingly complex economic environment in Hong Kong.

In this year's competition, our contestants have shown their commitment to high standards in competence and ethics. Importantly there has also been a concerted effort to ensuring a relentless focus on the customers. We are confident that they will continue to uphold these important values and maintain Hong Kong's position as a regional wealth management hub.

I would also like to thank everyone on the Panel of Judges, including representatives from the regulators, and academic, banking and financial institutions. Their contribution is highly appreciated.

This year, the HKIB OFMP Awards has entered its' 15th Crystal Anniversary. It is a great honour for me to witness the glorious journey of the OFMP Awards in the past fifteen editions with all the judges, contestants and the HKIB. I look forward to hearing the success stories of our wealth management professionals and the contribution they will bring to our society. Congratulations!

About the Organisers

The Hong Kong Institute of Bankers (HKIB), an industry-recognised professional training and certification body, has been serving the local banking community since 1963.

With the mission to enhance and sustain professionalism in the banking sector, and further develop the territory's status as an international financial centre, the HKIB collaborates with banks, regulators, financial institutions, academic institutes and various professional bodies to equip local practitioners with essential banking skills and knowledge through a complete development pathway – from recognised Professional Qualification Programmes (PQP) to Continuing Development Programmes (CDP). In addition to the flagship Certified Banker (CB) programme, which aims to act as the qualifications benchmark for banking professionals, the HKIB administers the Enhanced Competency Framework (ECF) programmes, a banking qualifications framework launched by the Hong Kong Monetary Authority (HKMA) with the aim of supporting capacity building and talent development for banking professionals.

In view of the changing landscape of the banking and financial services industry in Hong Kong, Macao and Mainland China, as well as at a global level, the demand for high-standard professional development and mutual recognition of qualifications has grown in importance. The HKIB's appointment by the Secretary for Education as an accredited Professional Qualifications Assessment Agency (PQAA), effective 1 August 2020, strengthens the Institute's ability to enhance the banking profession by promoting a common qualifications benchmark and establishing professional autonomy. The HKIB is authorised to use professional qualifications up to Level 6 of the Hong Kong Qualifications Framework (HKQF), which is equivalent to a master's degree.
