Programme Outline

Unlike traditional FinTech, where there is an element of competition between financial institutions, RegTech is an area in which everyone could win by cooperating and learning:

- the basic understanding of the history and development of RegTech
- the underlying technologies used in RegTech and their applications in banking industry
- Introduction to the RegTech Ecosystem and awareness of the HKMA's efforts in promoting the adoption of RegTech in Hong Kong banking industry
- Future opportunities in RegTech industry

Speaker Introduction

The speaker has over 30 years of experience working in large international banking corporations managing functions such as systems solutions, business analytic, operational planning, corporate security, operations risk management as well as anti-money laundering compliance.

He processes a Master's of Business Administration Degree and is one of the Directors and founding members of the RegTech Association of Hong Kong.

He has conducted trainings in different banks and organisations covering various subjects related to banking industries.
