1. Introduction

With the aim of supporting capacity building and talent development for banking professionals, the Hong Kong Monetary Authority (HKMA) has been working together with the banking industry to introduce an industry-wide competency framework - “Enhanced Competency Framework (ECF) for Banking Practitioners” in Hong Kong.

Since the implementation of ECF in 2018, various programmes for different job functions in banking industry have been developed and integrated into The Hong Kong Institute of Bankers’ (HKIB) flagship Certified Banker (CB) Programme which offer generalist, specialist, and strategic topics. The rationale for putting all programmes under one professional banking qualification is to promote an industry-based common qualifications benchmark. While ECF programmes offer “role-based” knowledge and certification to relevant practitioners, CB is offering a vocational qualification pathway for further career advancement, being continuously enhanced to nurture more holistic banking professionals and ultimately, supporting the industry to develop a continuous learning culture and a sustainable talent pool so as to maintain the competitiveness of Hong Kong as an international financial centre.

The Enhanced Competency Framework on Credit Risk Management (ECF-CRM) was introduced to develop a sustainable pool of CRM practitioners for the banking industry. The qualification structure of the ECF-CRM comprises two levels: Core Level and Professional Level, targets to entry level and staff taking up middle or senior positions in credit function.

As the programme and qualification provider of the ECF-CRM, HKIB has developed the learning programme – the “**ECF on Credit Risk Management (CRM) (Core Level)**” to help individuals attain the Core Level of the competency standards set for the ECF-CRM. The programme “**ECF on Credit Risk Management (CRM) (Professional Level)**” helps individuals attain the Professional Level of the competency standards.

This Handbook provides programme details and relevant information for the learner who wants to complete the ECF-Credit Risk Management training and examination with the intent of obtaining the Professional Qualifications of “**Associate Credit Risk Management Professional (ACRP)**”, “**Certified Credit Risk Management Professional (Commercial Lending (CCRP(CL))**” or “**Certified Credit Risk Management Professional (Credit Portfolio Management) (CCRP(CPM))**”.

For more details, please refer to the HKMA's Guide to ECF on Credit Risk Management at [Guide to Enhanced Competency Framework on Credit Risk Management](#) issued by HKMA dated 29 March 2019 or you may visit [HKIB's ECF on Credit Risk Management webpage](#).

Measures will be taken to align the same standard of fairness and effectiveness as that of the traditional face-to-face examination. A two device-approach will be adopted with one computer, either desktop or laptop, to access the “Remote Exam” platform for the examination and a mobile device, either smartphone or tablet, for invigilation and monitoring. Authentication of identity and real-time virtual invigilation will be conducted hassle-free with an automatic remote system to ensure the highest degree of integrity and data security.

To ensure smooth examination operations, candidates opting “Remote Exam” are required to participate in the “Rehearsal Practice Examination” to be held by HKIB before eligible to attend the formal examination. This arrangement will facilitate the candidates to get better preparation and understanding on the logistic arrangement of the “Remote Exam”.
