Enhanced Competency Framework for Banking Practitioners

With the aim of supporting capacity building and talent development for banking professionals, the Hong Kong Monetary Authority (HKMA) has been working together with the banking industry to introduce an industry-wide competency framework – “Enhanced Competency Framework (ECF) for Banking Practitioners” in Hong Kong.

The Hong Kong Institute of Bankers is the programme and qualification provider for the ECF on Compliance, with the following objectives:

- To develop a sustainable talent pool of compliance practitioners for the banking industry; AND
- To raise and maintain the professional competence of existing compliance practitioners in the banking industry.

Overview of The Hong Kong Institute of Bankers (HKIB)

HKIB has been serving the local banking community in the provision of professional training and certification services since 1963. HKIB is the first not-for-profit institution in Hong Kong to issue banking qualifications up to QF Level 6 under the HKQF and was appointed by the Education Bureau as a Professional Qualifications Assessment Agency in August 2020. With an objective to maintain and further develop the territory’s status as an international financial centre, the Institute works with the support of banks, regulators, financial institutions, academic institutions, and various professional bodies to provide local banking practitioners with professional training and development opportunities.

In view of the changing landscape of the banking and financial services industry in Hong Kong and mainland China, as well as on a global scale, the importance of continuing to enhance the standards of professional development has gained increased attention. The HKIB endeavours to provide and enhance its training and development products in order to equip its members with essential knowledge and skills that meet the industry’s needs.

Since the implementation of ECF in 2018, various programmes for different job functions in banking industry have been developed and integrated into HKIB’s flagship Certified Banker (CB) Programme which offer generalist, specialist, and strategic topics. The rationale for putting all programmes under one professional banking qualification is to promote an industry-based common qualifications benchmark. While ECF programmes offer “role-based” knowledge and certification to relevant practitioners, CB is offering a vocational qualification pathway for further career advancement, being continuously enhanced to nurture more holistic banking professionals and ultimately, supporting the industry to develop a continuous learning culture and a sustainable talent pool so as to maintain the competitiveness of Hong Kong as an international financial centre.

Integration of ECF Programme in Certified Banker (CB)

Certified Banker (CB) is a professional banking qualification programme developed and offered by HKIB. This common qualification benchmark is intended to raise the professional competency of banking and financial practitioners in Hong Kong to meet modern demands, while providing a transparent standard with international recognition. “ECF on Compliance (Core and Professional Level)” have already been incorporated in CB (Stage I/II) respectively. You may refer to the CB Programme structure as below to plan for your learning path. Learners who have obtained a pass at the relevant examination can then apply for an exemption for the elective module “ECF on Compliance (Core Level)” of the CB (Stage I) programme and the module “ECF on Compliance (Professional Level)” of the CB (Stage II) programme.
