

# Climate Change and Beyond

In collaboration with

## Overview

COP 27 just finished last week. There had been lots of negotiations and debates at the national level and exchange of insights and ideas at the business level. What are the key outcomes? What does it mean to businesses including banks? At the upcoming event, we would like to share with you:

## Agenda

### 1. The latest developments in the ESG / Sustainability space

We will share the key outcomes of COP27 and latest developments of ESG related regulations and reporting standards that may be impacting banks and also their customers.

### 2. Sustainable supply chain

The need for supply chain transformation is on the rise. Financing is an enabler to support these transformations. We will discuss the challenges and latest developments in the market with some case studies.

### 3. Sustainable infrastructure development and financing needs

Sustainable infrastructure developments are critical to future proof the sustainability of our society. We will highlight some of the developments in this space and the potential financing opportunities.

## Who Should Attend?

- Target users and key decision makers from Sustainability or ESG departments
- Practitioners from Banking and Finance industry
- Investment Advisors and Portfolio Managers
- Graduate trainee, management trainee or Student Members
