

Overview

Jointly organised with the Intellectual Property Department, this seminar is designed to equip banking professionals with a comprehensive understanding of intellectual property (IP) and issues related to Generative AI. It will focus on legal frameworks, risks management and mitigation strategies tailored to the financial sector. Participants will explore real-world applications, regulatory compliance and ethical considerations to safeguard IP rights while leveraging AI innovations in banking operations.

Agenda

- Introduction to Intellectual Property
- IP Rights in Generative AI
- Overview of Current Legal Frameworks
- IP Risks Associated with Generative AI
- Other Potential Risks Related to Generative AI
- Best Practices for Utilising Generative AI

Who Should Attend?

- Bank managers and executives in charge of legal and compliance, risk management, information technology and data governance
- Graduate trainees and management trainees in compliance, risk management and fintech roles
- Student Members planning to pursue careers in compliance, risk management and fintech

Speaker

Alan CHIU
