Overview

An exclusive luncheon designed for senior executives will focus on Cloud Security Transformation for the Post-Quantum Financial Landscape. This high-level gathering will bring together thought leaders and decision-makers to explore the critical intersections of cloud technology, artificial intelligence (AI), and quantum computing in the banking sector. The luncheon will deliver valuable insights into the latest developments in cloud security adoption including API security, container security, and cryptographic key management. The compliance requirements set forth by the HKMA, and the implications of the forthcoming post-quantum era.

Agenda

- HKMA Cloud Adoption Guidance – Understanding adoption requirements and their impact
- AI & Cloud Infrastructure – Building strong foundations for innovation
- Quantum Computing – Driving future breakthroughs and operational excellence

Who Should Attend?

- Chief Information Officer (CIO), Chief Information Security Officer (CISO), IT/Security Head, Senior Executive, Solutions Architect
- Areas of Responsibility: Cybersecurity, Data, Application, Cloud, FinTech, AI & Quantum, Risk & Compliance

Speaker

Richard CHIU
Head of Sales Engineering,
Thales

Richard has over a decade of experience in cybersecurity across Hong Kong and overseas. He specialises in designing cloud and security solutions that support digital transformation and align with customer strategies.
