**Quantum-Resilient Finance: Hong Kong's Next Frontier**

In collaboration with: HONG KONG COMPUTER SOCIETY 香港電腦學會 55 Anniversary

3 HOURS
HKIB CPD SFC CPT
PWMA OPT

HKiB The Hong Kong Institute of Bankers 香港銀行學會

## Overview

In collaboration with the Hong Kong Computer Society (HKCS), HKIB will host a seminar that takes an in-depth look at the transformative impact of Quantum Computing on the financial services industry. The seminar will explore how Quantum Computing is reshaping cybersecurity and highlight the importance of adopting Post-Quantum Cryptography (PQC) to future-proof the banking sector's digital resilience. Featuring speakers from experts across sector, the session will equip participants with the insight and knowledge needed to better prepare for this new era of technological disruption.

## Agenda

➢ Quantum Computing in Financial Services
➢ Breakthroughs in Data Processing and Cybersecurity
➢ Quantum Timelines and Encryption Risks
➢ Insights from International Cross-Sector Quantum Experts
➢ How Quantum Computing Reshapes Cybersecurity
➢ Why Post-Quantum Cryptography (PQC) Matters
➢ Future-Proofing Digital Resilience for Banking

## Who Should Attend?

➢ Bank managers and executives in charge of information technology, risk management and cybersecurity
➢ Graduate trainees and management trainees in digital banking, fintech, and innovation roles
➢ Student Members preparing to pursue careers in financial technology, banking operations, and information security

## Speakers

➢ **Ricky LEUNG**, Deputy Director, Cyber Security and Analytics, ASTRI
➢ **Alvin LI,** Head of Supervisory Technology Division, Banking Supervision Department, Hong Kong Monetary Authority
➢ **Dicky WONG**, Head of Cyber Security & Technology Risk, New World Development Group
➢ **Isaiah WONG**, Head of Cybersecurity & Overseas IT Department, The Bank of East Asia, Limited
➢ **Prof S.M. YIU**, Master Programme Director, School of Computing and Data Science, The University of Hong Kong
