

Overview

Join us for an insightful seminar exploring the transformative impact of Generative AI (GenAI) on the financial industry across Hong Kong and Macao. Discover how leading financial institutions are leveraging GenAI to drive innovation, enhance customer experience, and strengthen risk management frameworks. Through real-world case studies and practical insights, this seminar offers a valuable opportunity to explore emerging trends and connect with industry peers shaping the future of finance.

Speaker

Ms Jessica LIU
Planto Limited
Chief Executive Officer

Agenda

- Latest developments and emerging trends in GenAI in the financial sector
- Real-world applications of GenAI in banking and financial services
- Innovative strategies to enhance customer experience and operational efficiencies
- Applications and challenges in risk management, compliance, and data security
- Opportunities and future outlook for financial institutions in Hong Kong and Macao

Who Should Attend?

- Banking and financial services practitioners (e.g., digital transformation, IT, and risk management functions)
- IT and data professionals and management personnel
- Industry professionals interested in GenAI Practitioners across the banking and financial sectors
- Graduate trainees, management trainees, and student members
