Traditional Banking Meets Web3: Virtual Asset Governance and Stablecoin Compliance

Programme Code: THRCPO0P26122

15 December 2026 (Tuesday)
7:00pm – 10:00pm

3 HOURS
HKIB SFC PWMA
CPD CPT OPT

Programme Outline

As Hong Kong solidifies its position as a premier global hub for digital assets, the boundary between traditional finance and Web3 has dissolved. This training de-risks the digital landscape for senior banking practitioners, providing an authoritative breakdown of the HKMA and SFC joint and independent frameworks governing stablecoin issuers, Virtual Asset Trading Platforms (VATPs), and asset tokenisation.

Key Executive Takeaways:

- **The Virtual Asset Regulatory Architecture:** Overview on current licensing regimes, the prudential treatment of digital asset exposures, and the compliance parameters of tokenised Real-World Assets (RWAs).
- **Cryptographic Crime The Travel Rule In Practice:** Understanding the mechanics of blockchain analytics and the challenges of implementing the FATF Travel Rule across legacy clearing systems.
- **Strategic Risk-Return Assessment:** Eradicating unmitigated wholesale "de-risking" in favour of sophisticated risk-mitigation frameworks when safely onboarding virtual asset clients.

(The programme features real-life case studies, equipping participants with valuable industry insights.)

Speaker Introduction

The speaker held regional leadership roles in various international financial institutions, providing management oversight on compliance, AML/CFT, legal, conduct and governance in relation to private banking, corporate banking, investment banking, global markets and securities businesses. In addition to her diversified exposures in the regulatory framework of different countries, she has a record of fostering sound culture and integrity.

Target Audience

1. Banking Practitioners
2. Compliance Officers, Risk Managers and Relationship Managers
3. HKIB Professional Qualification Holders (eligible for CPD Core Hours):
