HKIB The Hong Kong Institute of Bankers | CERTIFIED BANKER

Fintech / Compliance

Unlocking the Future of Banking through Tokenisation

Programme Code: THRFT00P26122
2 December 2026 (Wednesday)
7:00pm – 10:00pm

3 HOURS
HKIB CPD | SFC CPT | PWMA OPT

Programme Outline

This training aims to provide a comprehensive exploration of how traditional banks and financial institutions are transitioning from siloed mainframes to unified tokenised networks.

Key Learning Points:

- **Tokenisation architecture** – Assess the structural layers of tokenised systems, including ledger protocols, middleware, custody solutions, and smart contract execution environments.
- **Digital financial instruments** – Structure tokenised financial products, including commercial bank money (tokenised deposits), stablecoins, sovereign debt, and illiquid alternative assets.
- **Economic and liquidity impact** – Formulate models for 24/7/365 continuous trading, fractional ownership, atomic settlement, and cross-border payment efficiency.
- **Regulatory and legal risk** – Navigate cross-jurisdictional compliance, Anti-Money Laundering (AML) / Know Your Customer (KYC) requirements, legal asset-mapping, and consumer protection protocols.
- **Enterprise integration strategies** – Architect transition frameworks to connect legacy core banking systems, e.g., SWIFT, core mainframes, with public-permissioned or private ledger infrastructure.

(The programme features real-life examples, providing participants with practical industry insights.)

Speaker Introduction

The speaker is a seasoned data analytics, FinTech and thought leadership practitioner with over 23 years of experience in business planning, data analytics, FinTech (RegTech/SupTech), management information and risk management, acquired through working for multinational analytics vendors, banks, consulting firms and universities.
