Key Roles/Responsibilities	Please “✓” where appropriate
☐ Role 1 – Operational Risk Management	
1. Manage operational risks and formulate, review and update operational risk policies, guidelines, processes and procedures throughout the AI	
2. Develop and review comprehensive policies and procedures for crisis management, including but not limited to factors triggering a crisis, escalation mechanisms, involvement of relevant functions, and external and internal approaches to handling the crisis	
3. Initiate, manage and execute risk governance, internal controls and processes with the overall objective of operational risk management, control awareness and enhancement to operational efficiency. Ensure full compliance with policies and regulatory requirements	
4. Maintain oversight and monitoring of the operational risk management system and the quality of the generated operational loss data	
5. Conduct operational risk control self-assessments (i.e. bottom up process to identify and evaluate risks and associated controls), or analyse and challenge the self-assessment results if the self-assessments are conducted by Role 2 (whichever is applicable)	
6. Conduct operational risk assessments to identify, assess, review, monitor and mitigate operational risks (i.e. top down assessment of the inherent risk and any controls that may exist in all existing or new material products, processes and systems) based on the AI’s own defined operational risk strategy and risk appetite	
7. Perform both qualitative and quantitative monitoring and reporting of the AI’s exposure to all types of operational risk, including trend analysis of risk profiles and review of the limits of operational risk regulatory and economic capital	
8. Identify compliance and internal control issues	
9. Execute operational risk monitoring duties and escalate incidents and operational risk events to senior management	
10. Report to senior management the proposed remedial actions of operational risk assessments and monitor the ongoing progress of remedial actions	
11. Report and escalate operational risk events/ incidents in a timely manner and monitor issue resolution to ensure timely responses are provided	
12. Compile operational risk reports, dashboards and metrics for management reporting	
13. Undertake scenario analysis/ assessment to identify potential operational losses and monitor operational risk profiles and material exposures to losses on an on-going basis	
14. Develop and evaluate effectiveness of business continuity and disaster recovery strategy	

Key Roles/ Responsibilities	Please “√” where appropriate
15. Provide practical recommendations on the remedial actions to be taken to address operational risk events, assess the quality and appropriateness of remedial actions identified and seek to improve the overall operational risk management process for the AI	
16. Manage completion of follow-up actions (e.g. further investigation) relating to operational risk events identified during the operational risk assessment process	
17. Conduct operational due diligence to ensure that operational risk management has been appropriately considered and implemented for new products and services, including thematic reviews of operational risk management	
18. Advise business units on operational risk management issues	
19. Undertake consistent liaison and collaboration with: - Internal departments such as legal, human resources, information technology and finance on operational risk related topics - Operational risk management subject matter experts (e.g. IT, Conduct, Fraud, Outsourcing, Data Privacy) - Internal audit and external audit	
20. Promote positive risk culture and risk awareness across the AI	
21. Conduct training sessions on operational risk for staff, including content review and training delivery	
☐ Role 2 – Business Function Risk and Control	
1. Conduct operational risk control self-assessments within business functions (i.e. bottom up process to identify and evaluate risks and associated controls), where applicable	
2. Conduct operational risk assessments to identify, assess, review, monitor and mitigate operational risks within the business function (i.e. top down assessment of the inherent risk and any controls that may exist)	
3. Implement operational risk management and control strategies within the business function as set out by the AI’s global risk and compliance functions. Ensure full compliance with policies and regulatory requirements	
4. Analyse business impact of different kinds of disasters or crisis	
5. Implement and maintain operational risk tools, dashboards and metrics to identify, analyse and mitigate operational risk within the business function	
6. Develop operational risk control measures	
7. Assist management in maintaining oversight on key operational risks, controls and enhancement initiatives and ensure effective and efficient internal controls and practices are in place	
8. Facilitate the testing of relevant controls as a part of the annual test plan and business continuity plan when required	
9. Identify compliance and internal control issues within business functions	
10. Conduct operational risk monitoring duties and escalate incidents and risk events to operational risk management unit and senior management	

Key Roles/ Responsibilities	Please "✓" where appropriate
11. Report to senior management and operational risk management unit the progress of remedial actions of operational risk assessments	
12. Report and escalate operational risk events/ incidents within business functions in a timely manner and monitor issue resolution to ensure timely responses are provided	
13. Manage and provide oversight of completion of follow-up and remedial actions (e.g. further investigation) relating to operational risk events identified during the operational risk assessment process	
14. Assist management in maintaining oversight on key operational risks, controls and enhancement initiatives and ensure effective and efficient internal controls and practices are in place	
15. Liaise and coordinate with other control functions on standards and regulatory interpretation, and operational risk and control activities	
16. Monitor completion of follow-up and remedial actions relating to operational risk incidents and events	
17. Monitor and review the limits of operational risk regulatory and economic capital	
18. Promote positive risk culture and risk awareness in different business units	
19. Play an active role in training sessions on operational risk for staff, including content review and training delivery
